ZOLTAN BATHORY B.C. RICH SIGNATURE GUITARS

As guitarist, songwriter and a founder of Five Finger Death Punch, Zoltan Bathory has taken the Metal community by storm. His intense playing and the group's meteoric rise to popularity are astounding. But in reality, the band has worked hard to develop a following, spending more than two years on the road performing with many of the world's biggest bands. Through it all, Zoltan has relied on his B.C. Rich guitars to deliver the aggressive tone, playability and dependability required for continual use on the road and in the studio.

Now, B.C. Rich proudly introduces three Zoltan Bathory Signature ASM model guitars. Each reflects Zoltan's specific technical requirements and keen design aesthetics. From the 25½" scale length and Floyd Rose® Original Tremolo systems to the "Standing Lion" inlay and neck-through construction, each of these new models will go a long way to bring out the best in any player.

Zoltan Bathory Signature ASMs

B.C. Rich Zoltan Bathory Signature ASM models feature the dynamic tone and responsive touch that Zoltan demands. This comes from a combination of classic B.C. Rich neck-through construction, 25½" scale length, Rockfield® Mafia™ pickups, Floyd Rose® Original tremolo units and a host of other small details. Now, you can get the very same guitar specs as Zoltan, even if you're not a Rock Star ... yet.
