- Independent tuner output connector for silent tuning
- Fully adjustable pedal feel (torque)
- High-quality VR (Variable Resistor) for utmost reliability and smooth audio performance
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

You can get louder, softer – or you can get incredibly expressive with the ultra-smooth FC600. This heavy-duty foot pedal works equally well as either a volume or keyboard modulation control pedal, without tying up your hands – or slowing down your performance. With the FC600 in your setup, total control of your sound is just a step away.

It's a Volume Pedal...

The FC600 is the ideal way to take control of your volume, whether you play keyboards, guitar or bass. Designed for use with all high-impedance instruments, the FC600 features the highest-quality components throughout, ensuring the ultimate in signal integrity. The ultra-smooth pedal movement provides complete control over your volume, enabling you to quickly shift from rhythm to lead levels, or to gently increase the volume for pedal-steel or cello swells that create amazing ambience.

*Warranty details can be found at music-group.com.

FC600

Heavy-Duty Foot Pedal for
Volume and Expression Control

It's an Expression Pedal...

Whether you're on the stage or in the studio, the FC600 also pulls double duty as a superb control pedal for your keyboards, sound modules, effects processors and more. Keep your hands in the music, and let your feet take you to new places.

It's so Easy!

Just plug in and depress the pedal to increase the volume, then rock back on your heel to decrease it – that's all there is to it. Plus, you can adjust the minimum volume control to match your rhythm level, or to zero for tasty swells that will mesmerize your audience. When you're ready for your solo, just put the pedal down and launch into the stratosphere!

Tank-Tough Construction

The FC600 features a heavy-duty aluminum chassis that is both light in weight and rugged enough for the road. The pedal surface is rubberized for non-slip action and comfort, and is fully-adjustable for the perfect pedal feel. A high-quality VR (Variable Resistor) is utilized for the utmost in reliability and ensures ultra-smooth travel from zero to wide open. An independent tuner output is provided for silent tuning.
