Why Sennheiser

For 70 years the Sennheiser name has stood for top-quality headphones, headsets, microphones and integrated systems. Our name has become synonymous with true sound and tailor-made solutions for every aspect of recording, transmission and reproduction of sound.

The Sennheiser heritage of sound excellence has been condensed in the most advanced high-quality and robust gaming headsets that we have been making for a decade. Our latest gaming headset models are specially designed to take your gaming experience to a new level.

On top of that, game developers use Sennheiser recording equipment and Sennheiser headsets to develop game audio for your games – it's a perfect match.

Supreme Comfort

G4ME™ ZERO

The Sennheiser G4ME™ ZERO professional noise blocking PC gaming headset is the no compromise gaming headset. When you need outside noise blocked out, when you seek nothing but pure, clear gaming sound, and when you want the best fit a closed gaming headset offers, the G4ME™ ZERO headset is for you. Featuring a new lightweight, modern and robust design with Sennheiser speakers, fitted leatherette memory foam ear pads and pro noise cancelling microphone, you'll have the best headset for professional and immersive gaming.

The foldable design makes it easy to collapse and store in the supplied hard carry case

Tailored leatherette double layered memory-foam ear pads, ensure the best acoustically sealing and wearing comfort

G4ME SERIES
G4ME™ ZERO

Your key to full privacy, the closed design of the ear cups ensures optimal audio quality and prevents anyone around you from hearing the game sounds

The pro noise-canceling microphone reduces ambient noise for crystal-clear conversations

** For Mac and PS4™ users, see Technical data

Feel the game not the headset

G4ME™ ONE

Feel the rush, the beats, the tension and the awesome sound - not your headset. The Sennheiser G4ME™ ONE open acoustic PC gaming headset features an extremely accurate and natural sound experience. The lightweight design with Sennheiser transducer technology optimized for professional PC gaming features a pro noise-canceling microphone with intuitive mute function and integrated volume control on the right ear cup. The open design and XXL plush velvet ear pads ensure that air can be led through to your ears makes G4ME™ ONE the ultimate comfortable headset for PC home gaming.

Open acoustic design will keep your head cool

Plush velvet ear pads let your skin breathe and give you the best comfort

The volume control is integrated on the right ear cup

The pro noise-canceling microphone reduces ambient noise for crystal-clear conversations

G4ME SERIES
G4ME™ ONE

** For Mac and PS4™ users, see Technical data

The Sound Games Are Made Of

Sennheiser is the only audio company that makes both the precision microphone equipment your games are recorded on, and the headsets you use to play them. Our headsets are engineered to bring you the same high-level of detail acoustical quality, the game developers intended you to hear.

"When developing game audio with Sennheiser equipment I make sure that the player gets perfect audio and can experience the game exactly as I mixed it".

Frans Galschiøt Quaade,
Lead Sound Designer, IO Interactive

Game or reality?

PC 363D Surround Sound

The PC 363D Surround Sound blurs the line between extreme comfort and out-and-out luxury. It provides a deep directional audio experience and using Dolby® Headphone technology, it delivers 7.1 virtual surround sound for the PC gamer who seeks nothing but the best. It features large and comfortable XXL velvet ear pads, which cushions your ears while gaming. And to keep you cool, lazer-cut open design aluminium ear-cups allow air to circulate and prevent sweat to build up.

7.1 Dolby Sound Card
For immersive gaming
experiences

Open acoustic
design will keep
your head cool

The pro noise-canceling microphone reduces
ambient noise for crystal-clear conversations

Go all In

PC 360

German-engineered speaker technology and a top-notch noise-canceling microphone deliver outstanding hi-fi performance. The PC 360 features our unique "Eargonomic Acoustic Refinement" design. Specifically developed for high-end hi-fi headsets, EAR technology channels audio signals directly into your ears. The PC 360 is an open-designed stereo headset, which means that air can pass in and out of the ear cups to ensure that you sweat less during the game.

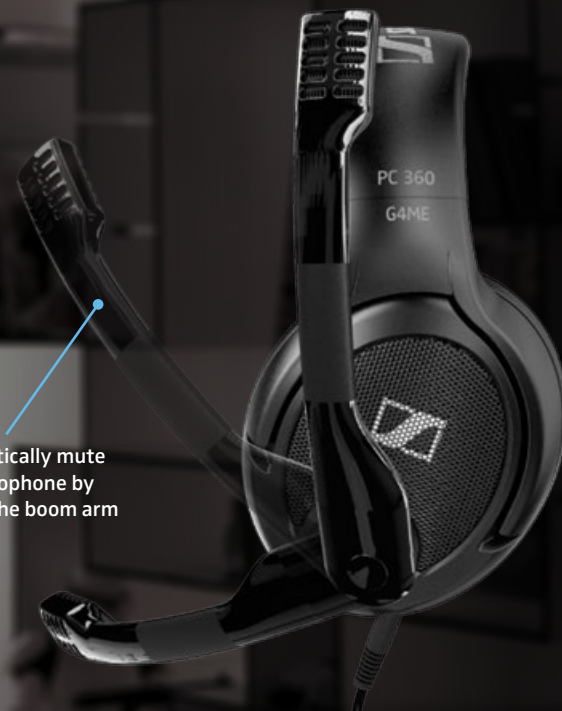

The pro noise-canceling microphone reduces ambient noise for crystal-clear conversations

** For Mac and PS4™ users, see Technical data

The volume control is integrated on the right ear cup

Automatically mute the microphone by raising the boom arm

Go PRO

PC 350 Special Edition

The PC 350 Special Edition has been specially developed to provide an extremely game realistic soundscape. This is achieved by reproducing high sounds such as gun shots and explosions, by adding high-level bass control. It features our "Ergonomic Acoustic Refinement" technology, which delivers ultimate sonic accuracy and clarity by channeling signals directly into your ears. Unique to this line of PC gaming headsets, this makes it easier to hear where each sound comes from, without rendering the audio through surround sound software.

The closed design provided by the custom-made aluminum ear-cups isolates you from any outside noise, so you hear even the faintest detail of your game. This makes the headset ideal for use at noisy gaming events.

The collapsible design allows you to fully fold up the headset

Your key to full privacy, the closed design of the ear cups ensures optimal audio quality and prevents anyone around you from hearing the game sounds

A new cable provides extra strength and quality

The pro noise-canceling microphone reduces ambient noise for crystal-clear conversations

** For Mac and PS4™ users, see Technical data

In the centre of the game

PC 333D

The PC 333D is a closed headset designed for immersive gaming. With the addition of directional sound you get a much deeper audio experience. We have teamed up with Dolby®, so that you can go from stereo to full 7.1 channel Dolby® surround sound at the slide of a button. It's the difference between hearing the game and being in the center of the action.

To top it off, the PC 333D features an intuitive DJ Hinge, which lets you flip up the entire right ear cup so you can have conversations with teammates while you keep an ear on the game.

DJ Hinge: Communicate with those around you without removing the headset

The volume control is integrated on the right ear cup, and you can mute the microphone by raising the boom arm

The on-the-ear, closed-acoustic design of the XL ear cups blocks out noise around you for hyper-realistic gaming with total immersion

7.1 Dolby Sound Card
For immersive gaming experiences

Call to ACTION

PC 330

The PC 330 delivers a thrilling, intense gaming action. Thanks to a shielded speakers and closed acoustic system, you'll hear nothing but the sound of the game – and people around you will hear none of it.

It includes some extremely gamer-friendly features including an intuitive DJ Hinge, which lets you flip up the right ear cup so you can have conversations with teammates while keeping an ear on the game.

Swivel the right ear cup up for direct contact with your teammates

The pro noise-canceling microphone reduces ambient noise for crystal-clear conversations with teammates

** For Mac and PS4™ users, see Technical data

A close-up, slightly angled shot of a man with light brown hair and a beard, wearing a white and black Sennheiser gaming headset. He is smiling and looking towards the left, presumably at a computer screen. The background is blurred, showing a desk and a monitor. The lighting is warm and soft.

Game time is your time

Game time is your time, and every Sennheiser gaming headset comes with a built-in mission: to deliver pure immersive audio excitement and give you the full experience your game deserves. It doesn't matter if you call yourself a gamer or if you just play games. We all need a little 'me' time once in a while, and the time spent in front of the screen, is good time.

Let the game surround you

PC 323D

The PC 323D features 7.1-channel surround sound audio, which makes your game ultra-realistic. Our quality combines with Dolby® technologies to deliver astounding sonic depth and precision in your game. You can pinpoint even the slightest sounds and stay one step ahead of the competition.

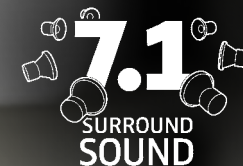

Open-design ear cups let air flow to your head and help keep you cooled down, and the stereo speakers are mounted on Sennheiser -patented CircleFlex™ ear pads, that swivel around their base, and instantly adjust to your ears and head.

Simply raise the boom arm and you've muted the microphone

Soft-padded comfort CircleFlex™ ear cups ensure the ear pads rotate and adjust automatically to your head

Sennheiser quality speakers deliver great acoustic performance with all your games

7.1 Dolby Sound Card For immersive gaming experiences

Get ready to rumble

PC 320

The PC 320 is your perfect day-to-day gaming headset. Delivering high-quality stereo sound, the speakers are mounted on Sennheiser CircleFlex™ ear pads, that can swivel around their base and instantly adjust to your ears and head. It features an over-the-ear, open-acoustic design, which makes sweat a thing of the past. Air is allowed to flow through the headset to yours ears, while built-up heat to escapes. Best of all, all audio controls have been integrated right into the ear cup.

Sennheiser quality speakers deliver pure sound from games and music

Soft-padded comfort CircleFlex™ ear cups ensure the ear pads rotate and adjust automatically to your head

** For Mac and PS4™ users, see Technical data

Sounds like victory

PC 310

If you've been looking for a better gaming audio experience and haven't tried a Sennheiser gaming headset yet, then the PC 310 is for you.

It will give you the sonic boost you're after – and it'll do so in comfort and style. Open-design ear cups let in air to keep your head cooled down while gaming, and cushioned ear pads provide added comfort for your ears. The PC 310 is also both tough and extremely lightweight.

Noise-canceling microphone provides crystal-clear communication with teammates or fellow gamers

Open-acoustic ear cups keep your head cool for hours of playing or listening

Tough design and top quality materials make the PC 310 a keeper

** For Mac and PS4™ users, see Technical data

For your Ears Only

PC 151

The PC 151 lets you focus on your game. Featuring closed, quality speakers, it reproduces detailed sound even at low volumes. Large velour ear pads keep you comfortable over long stretches of gaming, and block out background noise so you stay focused. And with an adjustable microphone boom featuring noise canceling technology, you know your teammates will hear you even when you are whispering instructions.

Place the
microphone
just where
you want it

Plug-and-play
simplicity means
it's easy to con-
nect to your lap-
top or computer

** For Mac and PS4™ users, see Technical data

Good to go anywhere

The pro microphone takes your gaming chat to a new level

Sennheiser CircleFlex™ technology ensures the ear pads adjust automatically to your head

Hear the sounds of the engine, car crashes or explosions in more details

U 320 Multi Platform

The U 320 is the ideal choice if you play console games, or play on more than one device. It delivers superb audio on both PC, MAC, Xbox® or PS3®. For optimum comfort, CircleFlex™ ear cups ensure the ear pads adjust automatically to your head. An open acoustic design allows built-up heat to escape, keeping your head cool while gaming. The U 320 gives you two volume controls – one for the game audio, one for other players – and a super-clear microphone for gaming communication. Plus, a punchy bass boost makes those roaring engines, car crashes and explosions even more realistic.
