WARWICK SPEAKER CABINETS WCA 410 AND WCA 115

Since the 410 cabinet became the de facto standard Bass Guitar Cabinet a lot of effort has gone into making it both lighter and smaller.

This has been at the expense of sound quality and quantity. We decided for our new line that we wanted to make the speaker cabs with “classic” dimensions so we would preserve the classic sound and power that we all love.

We also developed new speaker drivers to complete our new units so everything interacts as an organic whole.

Clad in black carpet for durability and with a steel grille for speaker protection we hope you will embrace our new “classic”.
