

FREE5LT

All-in-one battery powered sound system

Description

PROEL FREE systems gives you the freedom to play your music or amplify your voice anywhere without worrying about where to plug the power cord, how to connect your MP3 player or how to set your microphone.

FREE5LT is battery powered combo sound systems with a full set of features and the sound you don't expect from this kind of products. It includes a versatile MP3 player with USB port and BLUETOOTH connection, featuring a large LCD and a full control set. FREE5LT is hosted in a compact and road-proof plastic cabinet that provides maximum portability and protection, allowing the systems to be taken everywhere. It is also fitted with an adapter for standard microphone stand.

Equipped with a 5 full band speaker and a 20W power amplifier, FREE5LT is an all-in-one multi-purpose mobile system for indoor and outdoor applications requiring high quality sound and advanced features.

The WIRELESS module included provides a clean and hassle-free wireless connection with the included handheld microphones for the maximum freedom of movement.

The Li-ion internal rechargeable battery provides up to 4-5 hours of mains-free continuous operation.
