

Quick Start Guide

GO GUITAR PRO

High-Definition Guitar Interface for Mobile Devices

Getting started

1 Plug the included USB cable into GO GUITAR PRO's USB input. Plug the other end of the cable into your device's USB or Lightning connection.

2 Plug a pair of headphones into the headphone input.

3 Connect a guitar or bass via an instrument cable with a 1/4" TS plug.

4 Connect an amplifier to the amp output via an instrument cable with a 1/4" TS connector.

5 Move the THRU/FX switch to the FX position to hear the processed guitar or bass sound from the app in your mobile device.

6 While playing your guitar or bass, turn up the GAIN wheel until you get the optimum input level for the app in your mobile device.

7 While playing, turn up the VOLUME wheel until you find your optimum headphone level.

8 Download your favorite TC Helicon app to begin experimenting with guitar and bass effects.

Specifications

Analog Connections

Guitar	1 x ¼" TS mono, unbalanced
Impedance	1 MΩ

GO GUITAR PRO

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.
