## SAFETY PRECAUTIONS

Please read all instructions before attempting to unpack, install or operate this equipment and before connecting the power supply.

Please keep the following in mind as you unpack and install this equipment:

- Always follow basic safety precautions to reduce the risk of fire, electrical shock and injury to persons.
- To prevent fire or shock hazard, do not expose the unit to rain, moisture or install this product near water.
- Never spill liquid of any kind on or into this product.
- Never push an object of any kind into this product through any openings or empty slots in the unit, as you may damage parts inside the unit.
- Do not attach the power supply cabling to building surfaces.
- Use only the supplied power supply unit (PSU). Do not use the PSU if it is damaged.
- Do not allow anything to rest on the power cabling or allow any weight to be placed upon it or any person walk on it.
- To protect the unit from overheating, do not block any vents or openings in the unit housing that provide ventilation and allow for sufficient space for air to circulate around the unit.

## 1. INTRODUCTION

This HDMI to HDMI Scaler is designed to convert and scale a wide range of HDMI sources for output to an equally wide array of HDMI resolutions. Input sources are supported at resolutions up to and including 4K@60Hz (4:4:4, 8-bit). Supported output resolutions range from SVGA to 3840×2160@60Hz (4:4:4, 8-bit). The friendly and simple design ensures that the user can set the unit up and quickly get a high quality picture on their display. Additionally, this unit provides analog stereo breakout audio (LPCM 2.0 sources only) to support the use of external powered speakers. A perfect tool for your HD and UHD signal conversion needs. The unit can be controlled via front panel buttons with an On-Screen Display (OSD).

## 2. APPLICATIONS

- Displaying HD video on UHD displays
- Displaying UHD video on HD displays
- Displaying HDMI sources on DVI displays with analog audio breakout to external speakers
- Video signal quality and level management

## 3. PACKAGE CONTENTS

- 1×HDMI to HDMI Scaler
- 1×5V/2.6A DC Power Adaptor
- 1×Operation Manual

## 4. SYSTEM REQUIREMENTS

- HDMI source equipment such as media players, video game consoles or set-top boxes.
- HDMI receiving equipment such as HDTVs, monitors or audio amplifiers.
- The use of "Premium High Speed HDMI" cables is highly recommended.

## 5. FEATURES

- HDMI input and output with 18Gbps (600MHz) 4K UHD support
- DVI 1.0 compliant with the use of an HDMI-DVI adaptor
- HDCP 1.4 and 2.2 compliant
- Supports HD resolutions up to 3840×2160@60Hz (4:4:4, 8-bit) & 4096×2160@60Hz (4:4:4, 8-bit)
- Supports 16-bit Deep Color up to 1080p@60Hz
- Supports 12-bit Deep Color up to 4K@60Hz (YUV 4:2:0) & 4K@30Hz (4:4:4)
- Supports pass-through of LPCM 7.1, Bitstream and HD Bitstream audio formats over HDMI
- Analog stereo audio breakout (LPCM 2.0 sources only)
- Supports up and down scaling of a wide variety of HDMI source resolutions, from 480p to 4K@60Hz
- Provides EDID management via EDID bypass, 6 built-in EDIDs or 1 user modifiable EDID
- Controllable via front-panel buttons with OSD

## 6. OPERATION CONTROLS AND FUNCTIONS

### 6.1 Front Panel

- 1 **POWER LED:** This LED will illuminate when the unit is receiving power. When a valid HDMI source is detected the LED will be green, if there is no valid HDMI source, the LED will be red.
- 2 **MENU:** Press to enter the OSD menu, or to back out from menu items.
- 3 **- & +:** Press to move up and down or adjust selections within OSD menus.

*Note: Press and hold the "MENU" button for 3 seconds while connecting the power supply to reset all settings to the factory defaults. Pressing "MENU" and "-" together will reset the output resolution to 720p@60Hz. Pressing "MENU" and "+" together will reset the output resolution to XGA (1024×768@60Hz).*

- 4 **ENTER:** Press to confirm a selection within the OSD or to go deeper into a menu item.

**LOCK:** Pressing and holding the "ENTER" and "+" buttons for 3 seconds activates the front panel Lock Mode. The power LED will blink red multiple times to indicate that Lock Mode has been activated. To deactivate the front panel Lock Mode, press and hold the "ENTER" and "+" buttons again. The power LED will blink green multiple times to indicate that Lock Mode has been deactivated.

*Note: When Lock Mode is active the OSD menu will be disabled, however OSD signal info will still display normally. If a button is pressed while Lock Mode is active the power LED will blink red 3 times.*

## 6.2 Rear Panel

- 1 HDMI OUT:** Connect to an HDMI TV, monitor or amplifier for digital video and audio output.

*Note: If no valid HDMI input source is detected the unit will output blank video using the selected free run color.*
- 2 HDMI IN:** Connect to HDMI source equipment such as a media player, game console or set-top box.
- 3 AUDIO OUT:** Connect to powered speakers or an amplifier for stereo analog audio output.

*Note: Supports LPCM 2.0 audio only. Bitstream formats will be muted.*
- 4 SERVICE:** Connect a USB thumb drive to this slot to upload a user EDID or to perform a firmware update.
- 5 DC 5V:** Plug the 5V DC power adapter into this port and connect it to an AC wall outlet for power.

## 6.4 EDID Management

Within the EDID Control section of the OSD menu are 2 menu items, "Mode" & "User", along with a details section displaying the content of the currently selected EDID.

### (1) Mode

The current EDID may be changed by selecting and changing the Mode option. There are 6 pre-defined Internal EDIDs, an External EDID which passes the EDID from the connected display, and a User EDID which is user-replaceable. To return the User EDID to its original value, please perform a factory reset on the unit.

The 6 Internal EDIDs are:

EDID	Video Max Definition	Audio Max Definition
Int FHD 2CH	1080p@60Hz	LPCM 2.0
Int FHD MCH	1080p@60Hz	LPCM 7.1 & Bitstream
Int UHD 2CH	4K@30Hz	LPCM 2.0
Int UHD MCH	4K@30Hz	LPCM 7.1 & Bitstream
Int UHD <sup>+</sup> 2CH	4K@60Hz, 4:4:4, 8-bit	LPCM 2.0
Int UHD <sup>+</sup> MCH	4K@60Hz, 4:4:4, 8-bit	LPCM 7.1 & Bitstream

### (2) User

The User EDID may be copied from a currently connected display, or uploaded from a USB thumb drive plugged into the USB slot on the unit.

- **Copy External:** Any EDID from a connected HDMI display can be stored as a User EDID by selecting "Copy External" from the User OSD menu and pressing the ENTER button. If the EDID was copied successfully the OSD will display a "Copy OK" message.
- **Copy From USB:** Previously saved EDID files (\*.bin format) can be uploaded into the unit by inserting a USB thumb drive containing the new EDID file in the root directory, selecting "Copy from USB" from the User OSD menu, and pressing the ENTER button. If the EDID was copied successfully the OSD will display a "Copy OK" message.
