

M588

小型摄影拾音麦克风

COMPACT VIDEO MICROPHONE

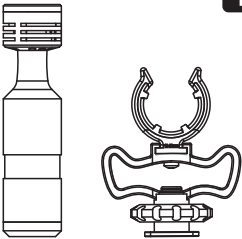

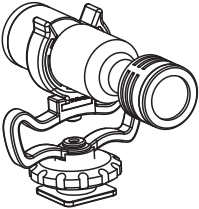

GENERAL INTRODUCTION

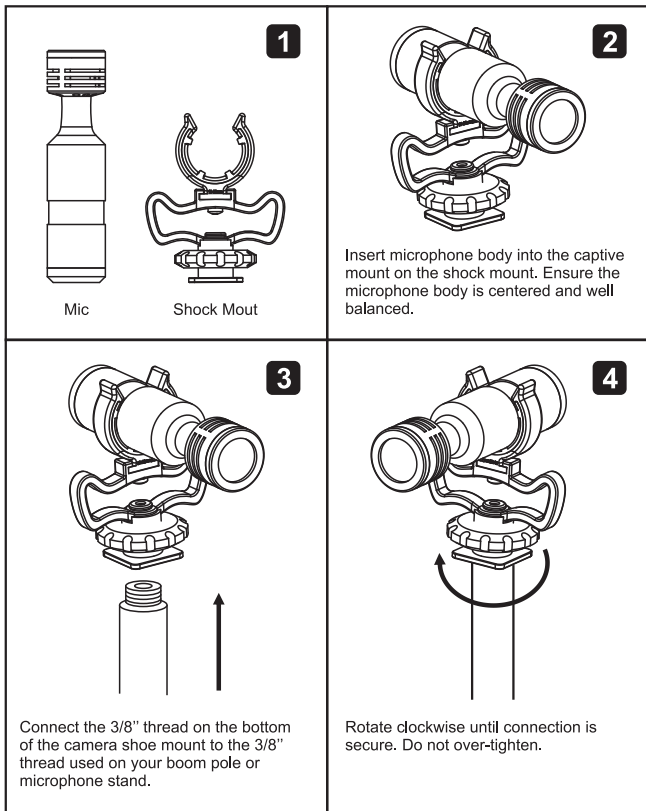

M588 is a compact microphone designed to improve the audio quality of your videos. A directional microphone reduces distracting peripheral sounds and focuses on the audio in front of the camera. With its cardioids polar pattern, it picks up the sound more natural and pure, when recording outside. The windscreen reduces the noise and unwanted sound during recording. This microphone is mainly used in SLR cameras or camcorders, offering high quality sound. It also comes with a camera and shock mount.

INSTALLATION

Mounting to camera:

<p>1</p>  <p>Mic Shock Mout</p>	<p>2</p>  <p>Insert microphone body into the captive mount on the shock mount. Ensure the microphone body is centered and well balanced.</p>
<p>3</p>  <p>Tightening ring</p> <p>Turn the tightening ring above the camera shoe mount counter-clockwise to loosen the camera shoe connection, slide the camera shoe into place on the camera mount. Once the microphone is in place, secure it by tightening the ring clockwise.</p>	<p>4</p>  <p>Connect one end of the 3.5mm output socket on the rear of the microphone and the other end of 3.5mm output cable to the camera's "microphone in" socket.</p>
