

**Solid wood hifi headphone  
for classic & fashion**

**Robin -SV021**

Dynamic Driver

Hifi Sound

Comfortable Wearing

Ergonomic Raindrop Earpad

Solid Wood housing

Detachable cable

External: fashionable & delicate design for elegance

Internal: fresh & smooth sound for natural & enduring listening

Wearing: relaxing & comfortable with zero pressure

**Balanced 3 frequencies. Sound is musical for long time listening**

Clean background and good separation.

Clear layers of sound with wide soundstage.

Closed housing design for no disturbing.

Bass: suitable and deep with elasticity.

Mid: natural

Treble: clear and gorgeous

**Φ 50mm dynamic driver**  
**Ultra thin diaphragm made of PC & fiber**

Sivga team has developed this ultra thin and flexible diaphragm in-house with material of polycarbonate (PC) and fiber. It's physical characteristics have ensured good dynamic performance and details. The sound is lush and natural when music is playing, and background is clean when music is off.

## Dedicated to research & development for outstanding performance

- 1. Magnet:** The 3mm thickness high performance Nd-Fe-B provides strong power to the driver.
- 2. Coil:** The coil is made of special copper clad aluminum wire. It has ensured that the sensitivity is high with good dynamic performance, and sound is soft, transparent and bright.
- 3. Diaphragm:** Combined with self developed diaphragm structure, this unique and in-house developed polycarbonate diaphragm has very good elasticity.

## Low impedance of $32\Omega$ , easy to drive

General mobile phones and computers can make vivid sound quality with good sound source. Professional audio players can make better performance.

## Elegant craftsmanship

Headband is made of good quality high protein leather for soft and delicate feeling. Computerized embroidery thread for 3D looking

The metal parts are made by scientific and exquisite crafts, which makes the noble and luxurious texture design.

The headband adjustment is easy and free, which is compatible with different head sizes.

Natural and high-density rosewood is the first choice for high-end musical instruments, which can make excellent sound quality.

The wood headphone housing is made by five axis CNC carving, combined with multiple processes such as grinding, polishing, painting, natural drying etc.

The surface of the wood housing is processed with piano high gloss craftsmanship, and engraved with elegant logo by laser technology.

The earpads are detachable, which can be replaced easily and conveniently.

The ultra soft memory foam wears comfortable.

The earpad leather is delicate and has a very good skin feeling

## Changeable Cable Design

It meets Hifi audiophile demand for upgrading cable.

## Product Specification

<b>Style</b>	Over ear
<b>Transducer type</b>	Dynamic driver
<b>Transducer size</b>	$\phi$ 50mm
<b>Frequency response</b>	20Hz - 20KHz
<b>Sensitivity</b>	105dB +/- 3dB
<b>Impedance</b>	32 Ohm +/-15%
<b>Cable length</b>	1.6M +/-0.2M
<b>Connector</b>	$\phi$ 3.5mm
<b>Weight</b>	275g

## Package content

1. SV021 headphone: 1pc
2. Audio cable: 1pc
3. Hemp carrying bag: 1pc
4. Adaptor 3.5mm to 6.35mm: 1pc
