User Instructions

Jelly Cosmos Ball

Introduction

Introduction: Thank you for purchasing the Jelly Cosmos Ball by ADJ Products, LLC. The Jelly Cosmos Ball is ready to be plugged in right out of the box and does not require any type of controller to operate. The new Jelly Cosmos Ball has tri colored LED dual rotating balls which rotate on the base and heads while changing color to the beat of the music. This is a great centerpiece effect with a large coverage area. The rotation speed is adjustable from 21 r.p.m. to 35 r.p.m. This unit produces multiple color beams of light that creates unique patterns on the floor and walls. To optimize beam intensity use this fixture with a fog machine or other type of special effect smoke. This fixture is suitable for theaters, studios, retail stores, and other similar locations.

Unpacking

To optimize the performance of this product, please read these operating instructions carefully to familiarize yourself with the basic operations of this unit. These instructions contain important safety information regarding the use and maintenance of this unit. Please keep this manual with the unit, for future reference.

Jelly Cosmos Ball

Precautions

- Do not attempt to remove or break off the ground prong from the electrical cord. This prong is used to reduce the risk of electrical shock and fire in case of an internal short.
- Do not remove the unit cover under any conditions. There are no user serviceable parts inside.
- Never plug this unit in to a dimmer pack
- Always be sure to mount this unit in an area that will allow proper ventilation. Allow about 6" (15cm) between this device and a wall.
- To reduce the risk of electrical shock or fire, do not expose this unit rain or moisture.
- This unit is intended for indoor use only, use of this product outdoors voids all warranties.
- During long periods of non use, disconnect the unit's main power.
- Always mount this unit in safe and stable matter.
- Power-Cord Protection - Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the fixture.
- Cleaning -The fixture should be cleaned only as recommended by the manufacturer.
- The fixture should be serviced by qualified service personnel when:
 - A. The power cord or the plug has been damaged.
 - B. Objects have fallen, or liquid has been spilled into the appliance.
 - C. The appliance has been exposed to rain or water.
 - D. The fixture does not appear to operate normally or exhibits a marked change in performance.

General Instructions

Please carefully read and understand the instructions in this manual thoroughly before attempting to operate this unit. These instructions contain important safety information regarding the use and maintenance of this unit. Please keep this manual with the unit, for future reference.

Jelly Cosmos Ball

Operation

Power Supply: The ADJ Jelly Cosmos Ball contains a automatic voltage switch, which will auto sense the voltage when it is plugged into the power source. With this switch there is no need to worry about the correct power voltage, this unit can be plugged in anywhere.

General Operation: Just plug this light in, switch the power on, and watch it go. This fixture can operate in two ways, either sound active color change or auto color change. The Jelly Cosmos Ball is ready to be plugged in, out of the box. After plugging the unit in, switch the power switch to the "On" position. When the unit is on the base and two outer heads will immediately begin to spin.

Adjustable Speed Knob: The speed at which this unit spins can be adjusted by turning the knob located at the base of the unit. When the knob is turned all the way counter-clockwise it will spin the slowest at 21 r.p.m. By turning the knob clockwise you can increase the rate of speed 21 r.p.m. to the fastest rate at 35 r.p.m.

Jelly Cosmos Ball

Installation

The unit should be mounted using a mounting clamp (not provided), affixing it to the mounting bracket that is provided with the unit. Always ensure that the unit is firmly fixed to avoid vibration and slipping while operating. Always ensure that the structure to which you are attaching the unit is secure and is able to support a weight of 10 times the unit's weight. Also, always use a safety cable that can hold 12 times the weight of the unit when installing the fixture. The equipment must be installed by a professional, and it must be installed in a place where it is out of the reach of people's grasp.

Jelly Cosmos Ball

Warranty Registration

The Jelly Cosmos Ball carries a three year (1095 days) limited warranty. We recommend you fill out the enclosed warranty card to validate your purchase. All returned service items whether under warranty or not, must be freight pre-paid and accompany a return authorization (R.A.) number. If the unit is under warranty, you must provide a copy of your proof of purchase invoice. Please contact ADJ Products, LLC customer support for a R.A. number.

Jelly Cosmos Ball

Cleaning

Due to fog residue, smoke, and dust cleaning the fixture should be carried out periodically to optimize light output.

1. Use normal glass cleaner and a soft cloth to wipe down the outside casing every 20 days.
2. Use a small brush and normal glass cleaner with a soft cloth to wipe down the inside casing and clean out the cooling vents every 30-60 days.
3. Always be sure to dry all parts completely before plugging the unit back in.
4. Frequent cleaning will extend lamp life and ensure fixture reliability.

Cleaning frequency depends on the environment in which the fixture operates (i.e. smoke, fog residue, dust, dew). In heavy use we recommend cleaning on a monthly basis. Periodic cleaning will ensure longevity, and crisp beam output.
