Thank you for purchasing this *American DJ®* product. For your convenience this lighting effect is ready to be used, there is no assembly required. Please read the following instructions before installing or using your new unit.

Operating Instructions:

Unit is ready to be hung or set on a Tripod. The PROFSLED 140 features a bright 140 watt LED, dual focusing knobs for precise, full focusing, a iris control slide at top of unit can also blackout. It has 7 colors to choose from including a Warm White color and Cool White color. The unit also include a master dimming fader and a strobe control fader. Optional LTS-5 tripod stand sold separately.

Notice: When unit is brand new smoke may emit from the inside of unit. This is the paint on the inside burning off. There is no problem with the unit, this is normal.

The fuse is located above the power cord. First unplug the unit from its power source. Then using either a flathead or phillips screwdriver, unscrew and remove the fuse holder. Replace the fuse with the correct fuse.

Controls & Functions:

1. **Strobe Fader:** Use this fader to activate and adjust strobing.
2. **Dimmer Fader:** Use this fader to adjust the output intensity.
3. **Standby:** This button will cause the all functions to blackout.
4. **Color Selections:** Choose from 7 different colors plus white.
